### 1 List of Definitions and Abbreviations

 $\bullet$   $\mathbf{MOA}$  - Municipality of Anchorage

### 2 Introduction

The bsdInspect web application provides Inspection Requests submission.

# 3 Questions

Still have some outstanding questions.

• - Break table column over two rows?

### 4 Examples

Series of useful LATEX markup. Need to break out to separate examples.tex file.

### 4.1 Escaping < and > Symbols

To get \$<\$ or \$>\$ just wrap the symbols in \$ for math mode.

### 4.2 Enumerate

- 1. DNR Alaska State Department of Natural Resources
  - HI Historical Index, not maintained since 1982
  - LE Land Estate, maintained by SGU
  - ME Mineral Estate, maintaind by SGU
- 2. Alaska State Surveys
  - ASBLT As-Built Survey
  - ASCS Cadastral Survey

#### 4.3 Comments

COMMENTS Comment — Sean Weems, Spring 2003

We should get the COMMENTS column searchable via the landrecords application before we do much anything else – shouldn't be too hard.

Errata: Plats spanning multiple sections

A few anomalies can be observed in the AKPLATS table. Specifically plats exist that span multiple sections. Since the table only has a single column, SCODE, that accepts a single section code, SGU (Status Graphics Unit) has handled this problem by entering multiple rows in the table, each with a different section that point to the same plat or file. Multiple section plats are indicated by setting the TCODE column to the value 37, and making an appropriate notation like Section 24-25-26-27 in the REMARKS column.

[FIXME: Perhaps the SCODE column should accept an array of sections?]

#### 4.4 Footnotes

Some footnotes here ?? for an example. Yet another 2 example.
